The content of the workshop is based upon the thoughts of Sri Aurobindo and the Mother. SOUL CONNECTION

We will learn to connect to our soul via the **Layers of the Heart** process which has been developed by Soleil Aurose. It's profoundly life changing as one can experience oneself as a continuum of being- a personality, a Soul and a transpersonal Self. The experience becomes anchored in the Akashic record of the earth, which makes extractions in this

SOUL OF MY NATION

We will then focus on discovering and feeling the qualities and shadows of our **Nation Soul** in our own body. We can experience why our soul choose to be born in our nation, how our soul can contribute to our nation's soul dharma, how we can discern qualities of our nation soul and ego in our body and transform

Solar energy project in BASGO by SunlitFuture

SunlitFuture, solar energy provider in Auroville, has established a solar energy system for a nunnery of Tibetan Ladakhi nuns in Basgo, near Ladakh in the north of India. The project was commanded by the Dutch Federation of Ladakhi Nuns, supported by Josee/AVI NL and sponsored by Triodosbank. One month later five Tibetan nuns, who represented different nunneries, went to Auroville and got a 10 days training on the maintenance of the system. All parties work together for a new solar energy project for another nunnery in Ladakh in 2015. Sunlitfuture did perform the work and the training voluntarily. They choose every year one solar project in isolated regions in the Himalaya's to "work for a better world".

Savitri weekend from our Savitri group in Nieuwkerk. The “big question” of this weekend was: What is the relationship between the Yoga of Aswapathy and Savitri’s Yoga? What is the connection, what the difference? Hannah, the liaison person of the Savitri group who prepared and chaired the meeting, said: “Sonia (Dyne) very gracefully guided us through the canto’s we had chosen. She put into words what could be understood with our hearts and intuition, inviting us to open ourselves to Savitri through the lines of the canto”. Sonia Dyne and Vikas from AVI UK were special guests in this weekend.

The Savitri group meets four times a year a whole day to collectively read and reflect on one or more canto’s of Savitri. The group has some twenty members and is led by Hannah Althuizen.

Due to the discussions about the economy and on going request for donations, one of the members, Frank, organised a meeting with Henk Thomas. Currently, Henk is updating the data from 2008, which he had analysed in his publication, up to 2014. Upon the data one could say that AV faces an economic stagnation.
